The Opportunity

The finance industry can be very lucrative and this is a flexible role that would suit anyone, from a student looking for extra cash, or someone looking for some extra income, to someone looking for a work at home opportunity, or a car dealer looking to offer finance to their customers.

Quite simply you will be a self-employed Independent Agent of Heart Finance.

“You will be rewarded by the time and effort you can allow to generate leads.”

Your role would be to promote our services in your local area and introduce applications to Heart Finance.

There are plenty of free resources you can call upon to advertise, from website directories to local publications.

We will provide everything you need to get started. You need no Financial Services experience as you will be passing all the leads direct to ourselves for processing. We provide all the input, all you have to do is generate the leads.

You do not need to have any sales experience although if you do that is great, you can draw upon your experience. All you need are very basic computer skills, and a willingness to succeed, and what's more, you are free to work at times that suit you.

Commission and Wages

The job can earn you a wage as well as commissions.

Each application is different and the level of commission is based upon many different factors, so it can be varied. Also for successful agents who bring in a sufficient amount of deals, we pay a monthly wage of approximately £1000.

We pay our agents a commission on any successful applications that have been referred through by themselves.

We offer between 25 - 50% of our commission for successful applications. Below are some examples of average estimated income figures (based on 25% commission).

Successful Mortgage/Re mortgage	£100 - £700
Vehicle Finance	£35 - £300
Unsecured Loan	£5 - £100
Secured Loan	£35 - £1200
IVA	£40 - £120

As you can see, achieving only a couple of deals a week could make a massive difference to your monthly income. You receive your commission as soon as we receive ours from the lender.
